

# Food hygiene Rating Scheme (FHRS)

**Inspection date – 13 September 2023**

**Inspector – Simon Gilbert**

The rating score is judged on the standards observed during the inspection and are based on three key factors:

- **Practices** – examines the level of legal compliance in how hygienically foodstuffs are handled, including how they are prepared, cooked, reheated, cooled and stored.
- **Structure** – relates to the condition of the physical make-up of the food handling areas and their ease of cleaning, but also considers general cleanliness itself, as well as the layout, lighting, ventilation and other facilities in the premises.
- **Confidence in Management** – reflects the 'confidence in management', covering aspects such as the awareness and understanding in the control of food-safety hazards associated with the business, and how these systems are supported by appropriate documented procedures and records.

At Rudgwick Pre-school all key staff hold food hygiene certificates which are routinely renewed.

Name of business

RUDGWICK PRE-SCHOOL

Date of hygiene rating
